Re: Jimmie J Perrin (#50052) DOB: 03-01-37
Visit: 108652 (#2/2 visits)
Site: 2 - Henderson Office

Jimmie J Perrin is seen in the office for evaluation on Feb 18 2000.

Subjective:

Patient comes in with skin lesion on his right ear. It is about 1/2 centimeter in size; crusted; raised; irritated.

Allergies: None

Impressions:

#	Diagnosis	Dx Date	Stop Date
1	Snoring	12-01-99	C
2	+ Probable squamous cell carcinoma	02-18-00	C

Laboratory Tests in Visit Record:

Ord Date	Test Name	Act	Result
----------	-----------	-----	--------

12-01-99	Chemistry panel	O	
12-01-99	Cholesterol	O	
12-01-99	CBC	O	

Action: F-File O-Open M-Maintain R-Order

Other Treatment Measures:

Other Therapy	Start	Stop	Comments/Special Directions
Nose tapes	12-01-99	C	

Discussion:

I am going to refer him to a plastic surgeon. The size of it as well as where it is located, I feel it needs more than just simple biopsy; so will make arrangements for him to see Dr. Jimmy Kee as soon as possible

Patient Discussion: The patient is to return PRN, sooner if symptoms persist or worsen. *I AUTHORIZE MY NAME TO BE MECHANICALLY AFFIXED TO THIS REPORT AS SIGNIFYING THAT I HAVE DICTATED THIS REPORT.

Examining physician: James King, M.D.

Re: Jimmie J Perrin (#50052) DOB: 03-01-37
Visit: 109561(#3/3 visits)
Site: 2 - Henderson Office

Jimmie J Perrin is seen in the office for evaluation on Mar 14 2000.

Subjective:

Had a skin lesion on last visit on his right ear that looked terrible. I really thought he had a skin cancer. Referred him to Dr. Jimmy Kee and they have done all of the paper work and the evaluation. Had him scheduled for surgery and he honestly healed itself. He is today to show me.

Allergies: None

HEENT: Examination of the ear is totally within normal limits without any scaly places, lesions or ulcerative type lesions.

Impressions:

#	Diagnosis	Dx Date	Stop Date
1	Snoring	12-01-99	C
2	Probable squamous cell carcinoma	02-18-00	C
3	+ Skin lesion, resolved	03-14-00	C

Laboratory Tests in Visit Record:

Ord Date	Test Name	Act	Result
12-01-99	Chemistry panel	O	
12-01-99	Cholesterol	O	
12-01-99	CBC	O	

Action: F-File O-Open M-Maintain R-Order

Other Treatment Measures:

Other Therapy	Start	Stop	Comments/Special Directions
Nose tapes	12-01-99	C	

Discussion:

Patient's place is completely healed and no further treatment is indicated. He will return as needed.

Patient Discussion: The patient is to return PRN, sooner if symptoms persist or worsen. *I AUTHORIZE MY NAME TO BE MECHANICALLY AFFIXED TO THIS REPORT AS SIGNIFYING THAT I HAVE DICTATED THIS REPORT.
